ARTIST DESIGNER DEVELOPER

PROCESS

1. IDEA

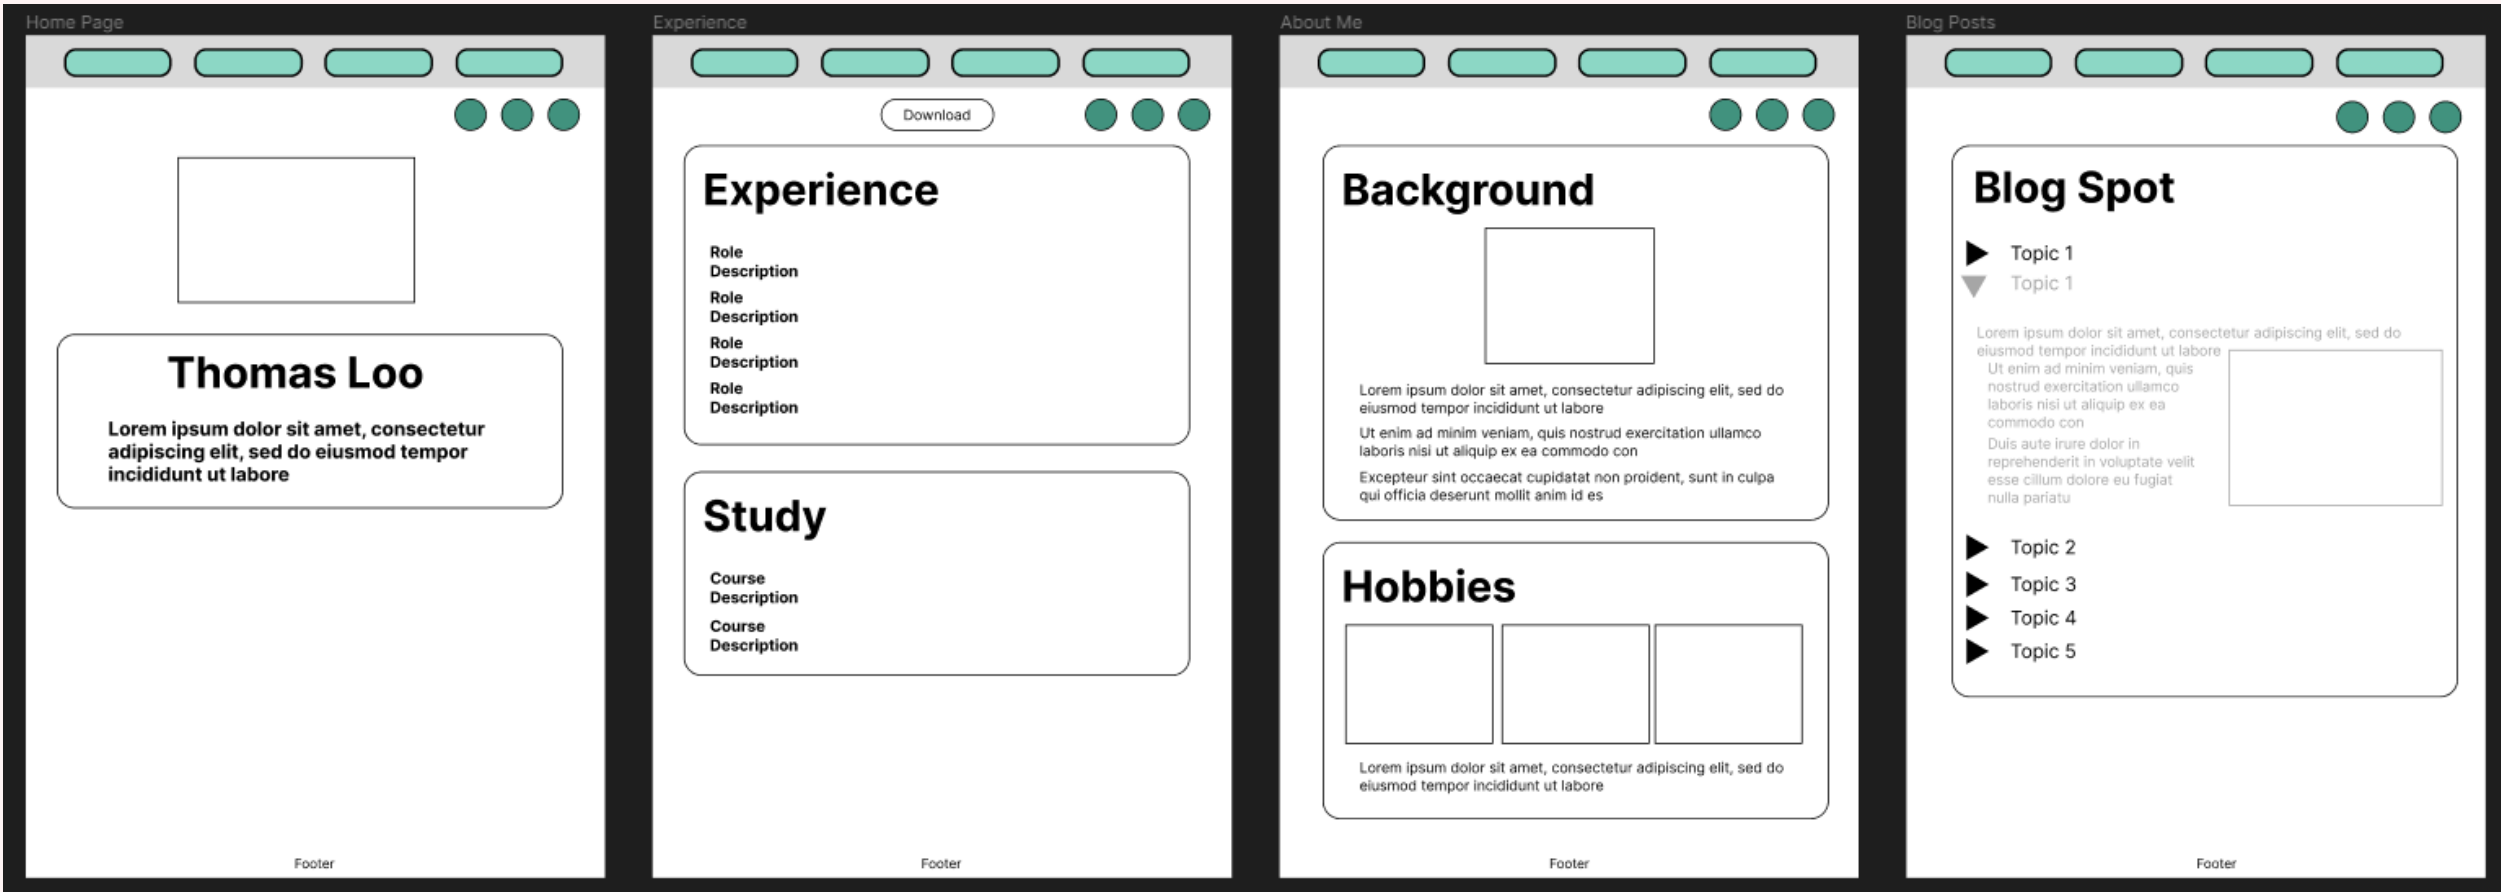

Initially, the ideas we form from a client's specification are somewhat vague. To develop our initial ideas into a workable app we create a user story by asking the questions, who, what and why? Once these questions have been answered, we can move on to prototyping.

Hero box example 1

Thomas Loo

Hi there, thanks for dropping by!

My name's **Thomas** and I'm a budding full stack web developer from Melbourne, Australia.

Hero box example 2

5 quick facts

- I lived in **Hong Kong** for 5 years
- I built a car with a friend to race in a grassroots racing league called **Nugget Nationals**
- I'm left handed
- I have a miniature schnauzer by the name of **Levin**
- I'm a little bit too into computer games

Content box example 1

Business Analyst - HSBC

Hong Kong
September 2020 to June 2023
Business & Commercial Management Team, Direct Custody and Clearing

Bachelor of Business - Economics & Finance

RMIT University, Melbourne, Australia
January 2011 to December 2014
Completed industry based learning year - January 2013 to February 2014

Content box example 2

Born in Melbourne I followed the usual course of studies and nabbed myself a Bachelor of Business from *RMIT University*. My first role out of university was largely an operations role and I quickly found myself feeling unfulfilled with no clear career trajectory.

With a burning desire to work overseas and search for a more interesting career I quit my job and moved to Hong Kong, finding employment as an IT Business Analyst with an Australian based consulting firm after some months. I would spend 2 wonderful years working in varied and interesting IT projects before the company succumbed to the effects of COVID-19.

The 2 years after that would see me working at a bank again as a Business Analyst, more so as a change manager. Halfway through this role I began casually exploring software development in my free time which lit an evergrowing fire that kept me asking the same question: *What if?*

Content box example 3

In my free time I'm usually trying to stay fit in the gym or having a hit at the local squash courts. When the weather's nice I like to venture a little further out and try my hand at fishing (usually with little to no success). After the sun goes down I'm most likely playing computer games, watching anime or playing board games with mates.

✓ The things I put into my airfryer this week

5 July 2023

Details box on click

✓ The things I put into my airfryer this week

5 July 2023

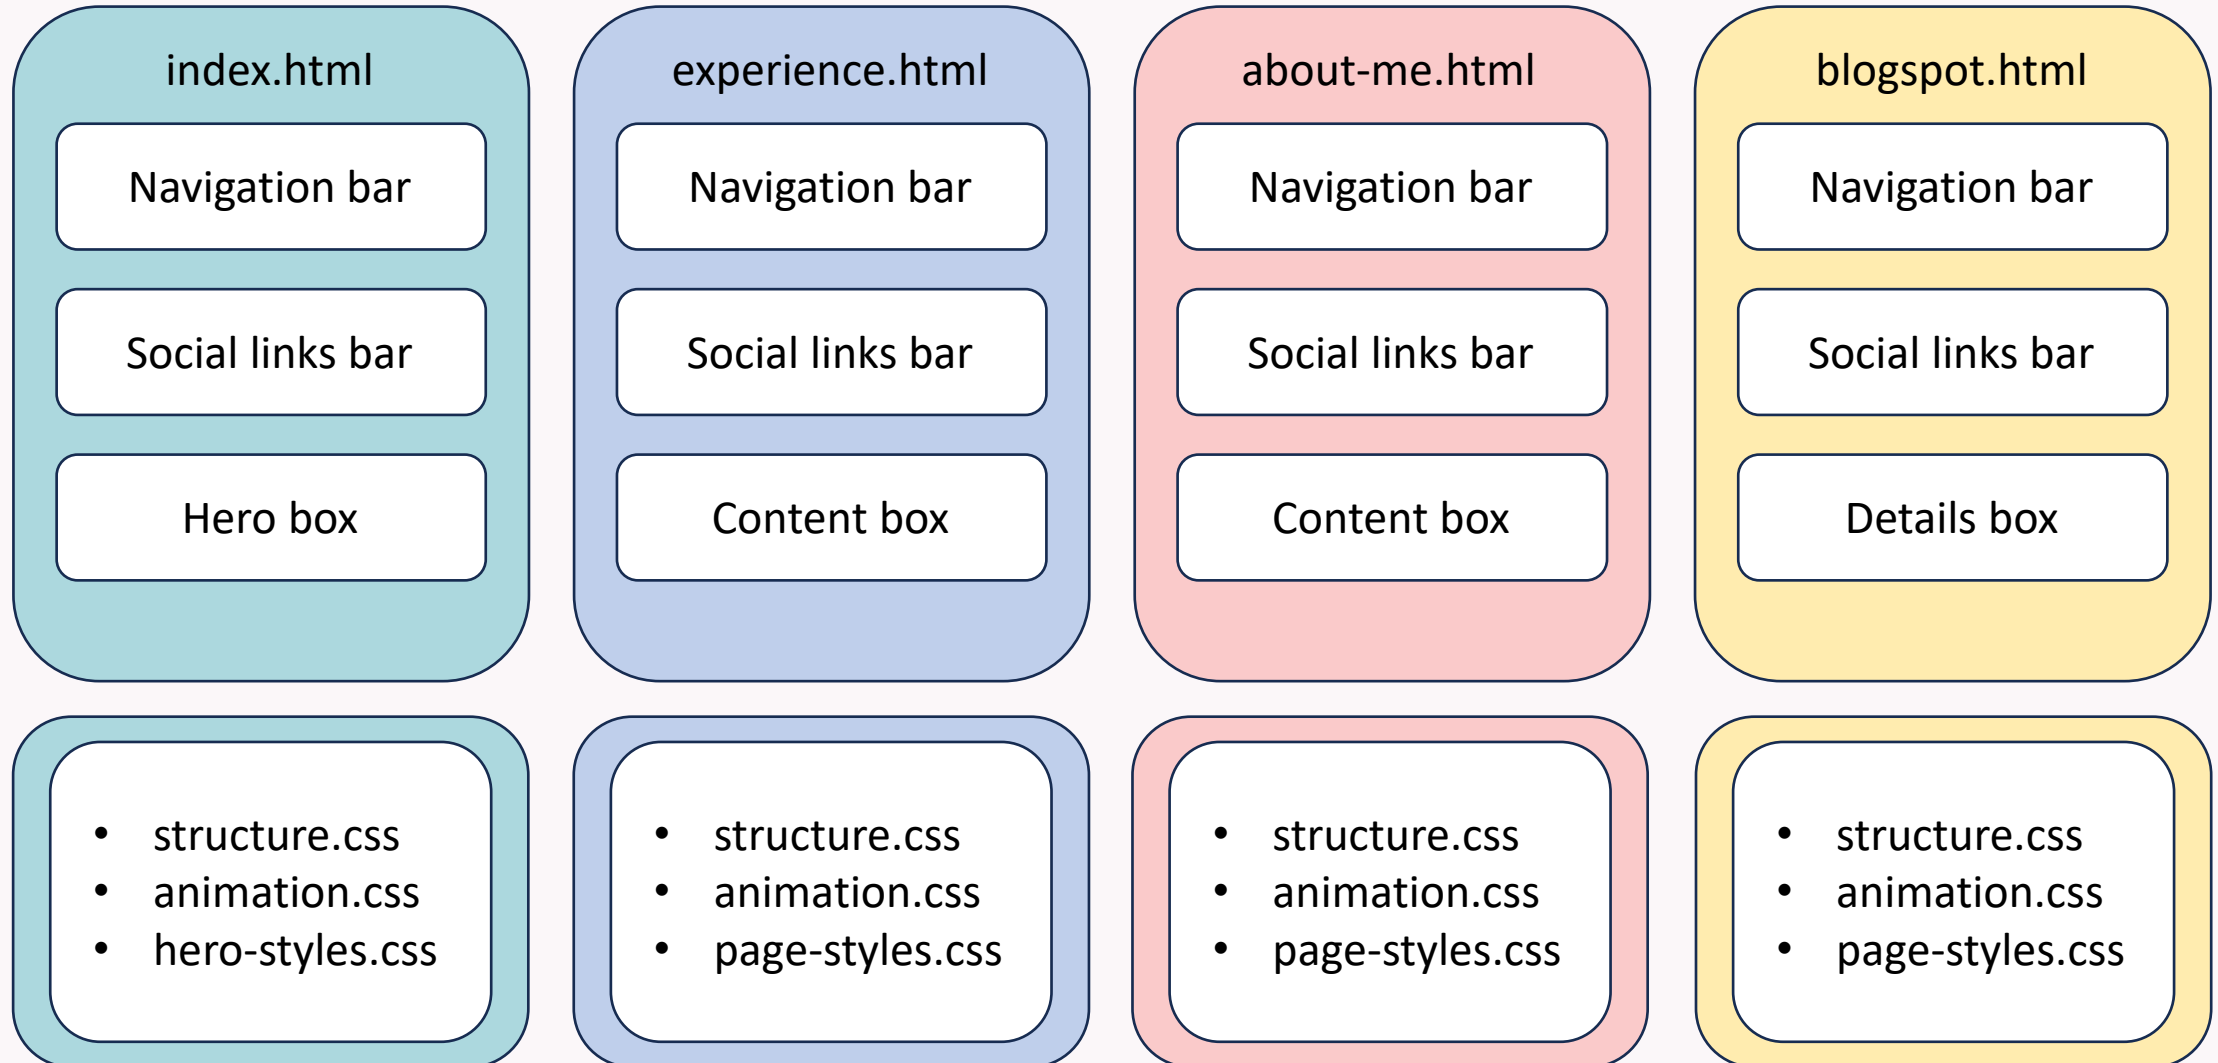

Chicken wings. Broccoli. French Fries. Four-n-Twenty Pies.
Bagels. Pizza.

I'm not saying that airfryers are the best invention since the birth
of mankind...but they're actually **very** good.
